

Mobile

1. Doctor reviews -> photo static
2. Payments -> radio button selection, when I select premium but and when go out and comes in standard is selected
3. Follow up notification -> only showing in list, popup not coming
4. Doctor to doctor referral for the patient -> notification showing on the list, but push notification not comes

Web

1. doctor personal information -> remove mandatory conditions for documents
2. Payment -> only mandatory for first time fees , Concessional is not mandatory
3. Set password -> remove small letters validation
4. Referral -> directly redirects to registration page
5. Patient appointment -> need to change that page
6. book appointment -> symptoms dropdown -> add symptoms like mobile
7. Patient -> add appointment -> date of birth not fetching
8. Patient -> add appointment -> Change known allergy into allergy
9. Notification arriving multiple times
10. Review -> popup no closing adding the review
11. For the patient, if the appointment has been already booked by another patient, the slot no need to show, status should be in approved and pending no not need to show
12. Appointment -> timeslot previous should be hidden
13. Past appointment -> patient profile -> need to show prescription details
14. In patient profile -> need to show referred doctor
15. patient edit profile
16. In doctor dashboard -> need to show an immediate appointment in one card
17. If the patient books immediate appointment -> that does not need an approve or reject in doctor profile, it should directly approve
18. If the patient comes from past appointment -> it appointment it goes to followup
19. For the doctor joined the called -> need to notification for the patient
20. In my doctor -> I can view the past appointment in the doctor profile, there need to show the prescriptions, also there follow up timing need to show date only
21. For doctors -> need to give DR
22. Doctor -> edit profile -> specialization need to add more in dropdown
23. Add appointment → filter -> remove price,

24. Follow up notification

25. In Patient login -> in dashboard -> add banner

26. For doctor -> in my patient profile -> referral doctor list -> many doctors name not showing

27. The prior notification and call missed notification not arriving

28. For patient -> clicking my doctor -> book appointment -> follow up appointment showing,
