

Alex Morgan

Senior Software Engineer

alex.morgan@email.com (555) 234-9981 San Francisco, CA alexmorgan.dev linkedin.com/in/alexmorgan github.com/alexmorgan

SUMMARY

Senior software engineer with **8+ years** building reliable, high-scale web platforms. I turn ambiguous product goals into shipped features, mentor engineers, and care deeply about developer experience and clean, well-tested systems.

EXPERIENCE

Senior Software Engineer
Vertex Labs San Francisco, CA

Mar 2021 — Present

- Led the rebuild of the billing platform serving **2.4M** customers, cutting payment failures by **38%** and reclaiming \$4.1M in annual revenue.
- Architected an event-driven services layer (Kafka + TypeScript) that reduced p95 checkout latency from 820ms to **190ms**.
- Mentored 6 engineers; introduced a code-review playbook that lifted PR throughput 27% without raising defect rate.

Software Engineer
Northwind Software Austin, TX

Jun 2018 — Feb 2021

- Built the company's first design-system component library (React + Storybook), adopted by 9 product teams.
- Shipped a real-time analytics dashboard handling **40k events/sec** with sub-second refresh.
- Reduced CI pipeline time 64% by parallelizing test suites and adding intelligent caching.

EDUCATION

B.S., Computer Science
University of California, Berkeley Berkeley, CA 3.8 GPA

Aug 2012 — May 2016

Distributed Systems · Machine Learning · Databases · Algorithms

PROJECTS

Pulse — Open-source observability
github.com/alexmorgan/pulse

2022 — Present

A lightweight metrics + tracing toolkit for small teams.

- 3.2k GitHub stars, 40+ contributors.
- Zero-config OpenTelemetry instrumentation for Node and Go.

Go OpenTelemetry React

SKILLS

Languages

TypeScript Go Python SQL Rust

Frontend

React Next.js Redux Tailwind Vite

Backend

Node.js PostgreSQL Kafka gRPC Redis

Cloud & DevOps

AWS Docker Kubernetes Terraform CI/CD
