SUMMARY

Senior software engineer with 8+ years building reliable, high-scale web platforms. I turn ambiguous product goals into shipped features, mentor engineers, and care deeply about developer experience and clean, well-tested systems.

EXPERIENCE

Senior Software Engineer

Mar 2021 — Present

Vertex Labs • San Francisco, CA

- Architected an event-driven services layer (Kafka + TypeScript) that reduced p95 checkout latency from 820ms to 190ms.
- Mentored 6 engineers; introduced a code-review playbook that lifted PR throughput 27% without raising defect rate.

Software Engineer

Jun 2018 — Feb 2021

Northwind Software • Austin, TX

- Shipped a real-time analytics dashboard handling 40k events/sec with sub-second refresh.
- Reduced CI pipeline time 64% by parallelizing test suites and adding intelligent caching.
