

# ALEX MORGAN

Senior Software Engineer

alex.morgan@email.com | (555) 234-9981 | San Francisco, CA | linkedin.com/in/alexmorgan

## SUMMARY

Senior software engineer with 8+ years building reliable, high-scale web platforms. I turn ambiguous product goals into shipped features, mentor engineers, and care deeply about developer experience and clean, well-tested systems.

## EXPERIENCE

### Senior Software Engineer — Vertex Labs

Mar 2021 - Present

Led the rebuild of the billing platform serving 2.4M customers, cutting payment failures by 38% and reclaiming \$4.1M in annual revenue.

- Architected an event-driven services layer (Kafka + TypeScript) that reduced p95 checkout latency from 820ms to 190ms.
- Mentored 6 engineers; introduced a code-review playbook that lifted PR throughput 27% without raising defect rate.

### Software Engineer — Northwind Software

Jun 2018 - Feb 2021

Built the company's first design-system component library (React + Storybook), adopted by 9 product teams.

- Shipped a real-time analytics dashboard handling 40k events/sec with sub-second refresh.
- Reduced CI pipeline time 64% by parallelizing test suites and adding intelligent caching.

## EDUCATION

### B.S., Computer Science — University of California, Berkeley

Aug 2012 - May 2016

## SKILLS

**Languages:** TypeScript, Go, Python, SQL, Rust

**Frontend:** React, Next.js, Redux, Tailwind, Vite

**Backend:** Node.js, PostgreSQL, Kafka, gRPC, Redis

**Cloud & DevOps:** AWS, Docker, Kubernetes, Terraform, CI/CD
