SUMMARY

Senior software engineer with 8+ years building reliable, high-scale web platforms. I turn ambiguous product goals into shipped features, mentor engineers, and care deeply about developer experience and clean, well-tested systems.

EXPERIENCE

Senior Software Engineer - Vertex Labs	Mar 2021 - Present
Led the rebuild of the billing platform serving 2.4M customers, cutting payment failures by 38% and reclaiming \$4.1M in annual revenue.	
Software Engineer - Northwind Software	Jun 2018 - Feb 2021
Built the company's first design-system component library (React + Storybook), adopted by 9 product teams.
