

PRD 0 – College Event Management Portal

College Dashboard

Dashboard Overview

Display:

- Today's Events
- Upcoming Events
- Live Events
- Total Events
- Total Registrations
- Total Attendance
- Certificates
- Active Departments
- Recent Notifications
- Event Analytics Summary

Quick Actions:

- Create Event
- Edit Event
- View Registrations
- Send Notification
- Generate Certificates
- Export Reports

Event Creation Module

The college should be able to create a new event.

Basic Information

- Event Name
- Event Banner
- Event Description
- Event Category
- Event Type
- Department
- Organizer Name
- Faculty Coordinator

- Venue
- Date
- Start Time
- End Time

Event Categories

Technical

Non-Technical

Workshop

Hackathon

Conference

Seminar

Webinar

Guest Lecture

Symposium

Cultural

Sports

Registration Settings

- Registration Start Date
- Registration End Date
- Maximum Participants
- Waiting List Limit

Registration Type

- Free
- Paid

Eligibility

College Selection

- Own College Only
- Selected Colleges
- Open to All Colleges

Department Selection

- CSE
- IT
- AI & DS
- ECE
- EEE
- Mechanical
- Civil
- Biomedical
- Biotechnology
- MBA
- Others

Year Selection

- First Year
- Second Year
- Third Year
- Final Year
- All Years

Registration Management

Admin can view:

- Registered Students
- Approved Students
- Waiting List
- Cancelled Registrations
- Checked-In Students

Search Filters:

- Name
- Register Number
- Department
- College
- Year

Export Formats

- Excel
- CSV
- PDF

Student Event Registration

Students can:

- View Event Details
- Register
- Cancel Registration
- Receive Confirmation
- View Event Pass
- Receive Event Reminders

Digital Event Pass

Every registered student receives:

- Digital Event Pass
- QR Code
- Registration ID
- Event Information
- Venue Details
- Reporting Time

Stored inside:

"My Events"

QR Attendance System

Every participant receives a unique QR Code.

On the event day:

Student

Open GradEnvy

Show QR Code

Organizer Scans QR

Attendance Marked Automatically

Alternative:

Faculty can manually mark attendance.

Live Attendance Dashboard

Displays

Registered

Present

Absent

Attendance %

Late Check-ins

Live updates during the event.

Event Notifications

College Admin can send notifications.

Examples

- Registration Open
- Registration Closing Soon
- Venue Changed
- Event Reminder
- Competition Starting
- Lunch Break
- Winner Announcement
- Certificates Released

Students receive

- Push Notification
- Email
- In-App Notification

Certificate Management

Certificate Template

College uploads

- Background Design
- Signature

- Seal
- Logo

Dynamic Fields

- Student Name
- Register Number
- College Name
- Department
- Event Name
- Position
- Certificate ID
- Date

Automatic Certificate Generation

After the event:

- Generate certificates for all eligible participants.
- Generate winner certificates separately.
- Send certificates automatically.

Certificates are directly stored inside:

Career Wallet

No manual download/upload required.

Certificate Verification

Each certificate includes

- Unique Certificate ID
- QR Verification Code
- Verification URL

Allows companies and institutions to verify authenticity.

Results Management

Organizer enters:

- Winner
- Runner-Up
- Special Awards
- Participation Status

System automatically updates:

- Student Profile
- Career Wallet
- XP
- Badges
- Competition History
- Envy League Statistics (if applicable)

Event Gallery

Upload

- Photos
- Videos
- Documents
- Presentations

Students can access the gallery after the event.

15. Student Feedback

After event completion

Automatically send feedback form.

Students rate:

- Overall Experience
- Venue
- Speakers
- Faculty Coordination
- Management
- Food
- Technical Quality

Dashboard shows:

Average Rating

Feedback Trends

Suggestions

16. Event Analytics

Display

- Total Registrations
 - Attendance %
 - No Show %
 - Certificate Downloads
 - Feedback Rating
 - Registration Trend
 - Participation Trend
-

17. Department Analytics

Every HOD can view:

Department Participation

Registered Students

Present Students

Attendance %

Certificates Earned

Competition Winners

Most Active Students

18. Student Analytics

For each participant:

Events Registered

Events Attended

Attendance %

Certificates Earned

Competitions Won

Participation History

19. Student Attendance Score

Every student has an Event Attendance Score.

Calculated from:

- Events Registered
- Events Attended
- Late Attendance
- Event Cancellations
- No Shows

Purpose

Identify reliable participants.

Future use:

Higher attendance score can improve eligibility for exclusive events.

20. Waiting List Automation

If a registered participant cancels:

↓

Automatically promote the next student from the waiting list.

↓

Notify the student immediately.

21. Faculty Management

Roles

Principal

College Admin

HOD

Faculty Coordinator

Volunteer

Permissions differ based on role.

22. Volunteer Management

Assign volunteers to:

Registration Desk

QR Attendance

Stage Management

Photography

Technical Support

Hospitality

Certificate Verification

23. Budget Tracker

Purpose

Help colleges track the financial status of every event.

Income

- Registration Fees
- Sponsorship Amount
- College Funding
- Other Income

Expenses

- Venue
- Printing
- Food & Refreshments
- Guest Speaker
- Technical Equipment
- Photography
- Certificates
- Marketing
- Miscellaneous

Dashboard Displays

- Total Budget
- Total Income
- Total Expenses

- Remaining Balance
- Expense Breakdown

Export Reports

- Excel
 - PDF
-

24. Event Timeline

Before Event

- ✓ Create Event
- ✓ Open Registration
- ✓ Student Registration
- ✓ Notifications

Event Day

- ✓ QR Attendance
- ✓ Live Monitoring
- ✓ Competition
- ✓ Results

After Event

- ✓ Certificate Generation
 - ✓ Feedback Collection
 - ✓ Analytics
 - ✓ Reports
-

25. Student Integration

Every completed event automatically updates:

Student Profile

Career Wallet

XP

Level Progress

Career Score

Achievements

Certificates

Activity Timeline

No manual student action required.

26. Dashboard Workflow

Create Event

Student Registration

Registration Approval (Optional)

Digital Event Pass Generated

QR Attendance

Competition/Event Conducted

Results Published

Certificates Generated

Career Wallet Updated

XP Awarded

Student Analytics Updated

Reports Generated

27. Reports

Generate reports by:

Event

Department

College

Date Range

Faculty

CSV

PDF

28. Future Scalability

The architecture should support future modules without redesign.

Future additions:

- Sponsor Management
 - Judge Portal
 - Multi-Day Event Scheduling
 - Venue Booking
 - Event Merchandise
 - Live Streaming
 - Ticketing
 - Alumni Participation
 - External Guest Management
-

Technical Notes for Development Team

- All modules should be API-driven.
 - Every event action should create an activity log.
 - Student participation should automatically synchronize with:
 - Student Profile
 - Career Wallet
 - XP Engine
 - Level System
 - Career Score
 - Notification Service
 - Certificate generation should support reusable templates with dynamic placeholders.
 - QR attendance should support offline scanning with synchronization when connectivity is restored.
 - Design the system to support thousands of concurrent registrations and live attendance updates.
-
