

CODE CLASH - Rule Book

Code. Compete. Conquer.

Welcome to **Code Clash**, a competitive coding event designed to test problem-solving skills, logical thinking, teamwork, and programming expertise.

General Rules

1. All participants must register before the event begins.
2. Each team can have a maximum of 2 members.
3. Participants must carry a valid college or organization ID.
4. Any form of malpractice or cheating will lead to immediate disqualification.
5. Internet usage is allowed only if specified by organizers.
6. Decisions made by judges and coordinators will be final.
7. Participants should maintain discipline throughout the competition.
8. Late submissions will not be accepted.
9. Use of AI tools is prohibited unless explicitly permitted.
10. Respect fellow participants and event staff.

Competition Rounds

Round	Description
Round 1	MCQ and aptitude-based elimination round
Round 2	Coding challenge with algorithmic problems
Round 3	Debugging and optimization challenge
Final Round	Real-time problem-solving challenge

Scoring Criteria

- Correctness of output
- Code efficiency and optimization
- Time taken for submission
- Code readability and structure
- Innovation and logical approach
