Salem, Tamil Nadu

EDUCATION

- Salem College of Engineering and Technology** salem, Tamil Nadu
Bachelor of Technology - Information Technology; GPA: 7.9 Nov 2022 - June 2026
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases

SKILLS SUMMARY

Programming Languages: Python, JavaScript (ES6+), SQL
Frameworks & Libraries: React.js, Node.js
Databases & Tools: MySQL, SQLite, Git, VS Code, PyCharm, Postman
Platforms & Cloud: Linux, Windows, Web, AWS
Soft Skills: Engineering Problem Solving, Debugging Focus, System Awareness, Clear Communication

EXPERIENCE

- Ematix Solutions** Salem, Tamil Nadu
Aiml intern Jul 2025 - Aug 2025
 - Built and evaluated supervised machine learning models in Python using Scikit-learn, performing feature engineering, preprocessing, and hyperparameter tuning to achieve 85%+ accuracy on 10,000+ records while ensuring model robustness and scalability.
 - Applied clustering, classification, and statistical analysis to extract actionable insights, supporting data-driven decision-making and end-to-end ML pipeline development.
 - Documented workflows, implemented version control using Git, and collaborated within Agile teams, following best practices for maintainable, efficient, and reproducible AI solutions.
- VNR Solutions.** Bengaluru, Karnataka.
Frontend Developer Feb 2025 - Mar 2025
 - Participated in requirement analysis and system design to develop a responsive React.js web dashboard, optimizing internal workflows and operational efficiency.
 - Implemented frontend performance enhancements, conducted unit testing, and improved UI responsiveness and user engagement by 25%.
 - Collaborated in cross-functional Agile teams to integrate RESTful APIs, debug complex issues, perform code reviews, and ensure maintainable, scalable, and modular code.

PROJECTS

- Expense Tracker (Full-Stack Web Application):** Developed a full-stack expense tracking tool using React.js, Node.js, Express, and MongoDB. Implemented CRUD operations for income and expenses with real-time updates, secure user authentication, and persistent data storage. Designed an intuitive and responsive UI, integrated RESTful APIs for seamless frontend-backend communication, demonstrating end-to-end full-stack development expertise.
- Stock Prediction App (AI/ML Web Application):** Developed a web application to forecast stock prices using Python, JAX, Flask, and yFinance API. Built machine learning models for predictive analytics, achieving 85%+ accuracy, and integrated real-time data visualization with interactive charts. Demonstrated end-to-end AI/ML pipeline development including data preprocessing, model evaluation, and deployment-ready web interface.
- Fake News Detector (NLP / AI Application):** Developed a Python application to classify news articles as real or fake using Natural Language Processing (NLP), Scikit-learn, and pandas. Implemented text preprocessing, feature extraction, and supervised machine learning models, achieving 90% accuracy on benchmark datasets. Demonstrated end-to-end ML pipeline development including model training, evaluation, and deployment-ready application.

CERTIFICATIONS

- Python – Udemy (Completed Certificate) — Data Analysis, Scripting, Backend Development
- SQL – Udemy (Completed Certificate) — Database Management, Query Optimization, Data Modeling
- Node.js – Udemy (Completed Certificate) — Backend Development, RESTful API, Server-Side Programming
- React.js – Udemy (Completed Certificate) — Frontend Development, UI/UX, Single Page Applications
- JavaScript – Simplilearn (Completed Certificate) — Web Development, ES6+, DOM Manipulation, Event Handling

EXTRA-CURRICULAR ACTIVITIES

- Actively participate in online coding platforms such as LeetCode and HackerRank to strengthen problem-solving and algorithmic skills.
- Completed online certifications in Python, React.js, Node.js, and full-stack web development, enhancing technical proficiency.
- Develop and present personal tech projects regularly, demonstrating hands-on experience with AI/ML, web applications, and full-stack development.
